### Platz-Max® – established and awarded!

In 1997 the Platz-Max® was presented for the first time. Since then more than 6000 units have been sold. In 2013 the Platz-Max®, „Multi“ received the innovation prize at the well-known equestrian fair „Equitana“.

### Platz-Max® - for all riding surfaces

Over the years, the Platz-Max® has met the extended requirements of the equestrian market and is now compatible with the Basic and Special models are ideally positioned for all riding surfaces. Due to the favourable feedback from our customers we have been able to improve and promote the product further.

### Why is the Platz-Max® so popular in the horse scene?

The Platz-Max® is designed in such a way that it can be used on almost all riding surfaces for both Indoor and outdoor riding arenas. Specially developed harrow tines are available for use, Smoothing bars, flex forming rolls, levelling bars, mesh rolls, Flex signs with serrated ledge as well as hoof impact scrapers and Tape rolls.

In the Platz-Max®, „Special“ area, the care of the riding surface is once again with some time-saving and effective features. You can, for example, use the space-saving Max®, „Rain“ and „Giga“ riding surfaces and at the same time to Sprinkle water into the surface. With the Platz-Max®, „Turf“ a model was developed, especially for racecourses or training racecourses, where a fast web smoothing is needed.
